| FM   | 70%*      | 1369 | 1197        | 721       | 52.7      | 60.2                |

\* The Pass Mark for Computer Based Testing

Examination FM is administered using computer-based testing (CBT). Under CBT, it is not possible to schedule everyone to take the examination at the same time. As a result, each administration consists of multiple versions of the examination given over a period of several days. The examinations are constructed and scored using Item Response Theory (IRT). Under IRT, each operational item that appears on an examination has been calibrated for difficulty and other test statistics and the pass mark for each examination is determined before the examination is given. All versions of the examination are constructed to be of comparable difficulty to one another.

For the October 2020 administration of Examination FM, an average of 70% correct was needed to pass the exam.
